Description of Property and Justification: *(Please attach map and photo)*

The 2-cell, skewed, precast concrete pipe culvert under fill has concrete wingwalls. Located under Flintville Road (MD 623) at a tributary of Broad Creek, pipe railings are set in concrete curbs to finish the structure that dates stylistically to ca. 1955. It is not historically or technologically significant. It is an example of a very common type that is still being used with great frequency.

NRHP Evaluation: Based on the information collected, TRC recommends the resource ineligible for the NRHP due to lack of significance. Due to the common design and the lack of any historical significance, the structure does not meet Criteria A, B, or C.
